Nordlicht Haustechnik – Price list 2026

All prices include 19 % VAT. Prices for materials are indicative and confirmed in the quote.

Maintenance packages

Service	Price	What is included
Heat pump annual maintenance	189 EUR	Refrigerant circuit check, filter cleaning, settings review, report
Gas boiler annual maintenance	149 EUR	Burner cleaning, emissions measurement, safety check, report
Oil boiler annual maintenance	169 EUR	Burner service, nozzle replacement, emissions measurement, report
Combined heat pump and hot water tank	239 EUR	Heat pump maintenance plus tank inspection and anode check

Maintenance packages include travel within 40 km. A maintenance contract (one visit per year, automatic scheduling) gives 10 % off the package price.

Common repairs (labour only, parts extra)

Repair	Typical labour
Replace circulation pump	1.5 hours
Replace expansion vessel	1 hour
Bleed and rebalance radiators (up to 10)	1 hour
Replace thermostat	0.5 hours

Heat pumps from stock

Model	Type	Price installed from
VP-40 variable-speed	Air to water, 8 kW	14,900 EUR
VP-60 variable-speed	Air to water, 12 kW	17,400 EUR
GP-30	Ground source, 6 kW	21,800 EUR

Installed prices include the outdoor unit, hydraulic module, 200 litre buffer, commissioning and registration for the federal subsidy. They do not include the removal of an old oil tank or electrical upgrades to the house connection.

Bathrooms

Small repairs (tap, siphon, flush valve): 78 EUR per hour plus parts. Complete renovations are quoted individually after a site visit; the site visit is free within 40 km.
